Project Manager

New Delhi, India | rishabh.jain@outlook.in | linkedin.com/in/notrishabhjain | notrishabhjain.github.io

SUMMARY

Project Manager with 11+ years in IT: software engineering first, then government consulting, now project management. Delivers government and enterprise digital platforms from requirements to go-live. Has worked on government projects worth over Rs 35 crore, and delivered platforms for 40 million cooperative members and the 8th Pay Commission. Open to project and programme manager roles, including AI projects.

SKILLS

Project management: Agile, Scrum, hybrid delivery, project planning, change control, risk management, vendor management, stakeholder management, UAT, RACI, P&L

Product and requirements: BRD, SRS, RFP, DPR, workflow design, AI scope definition

Technology: React, Node.js, MongoDB, PostgreSQL, REST APIs, AWS, GitHub Actions, Hyperledger Fabric, Ethereum

Government standards: Parichay SSO, Aadhaar eSign, GIGW, WCAG 2.1 AA, CERT-In audits, STQC

Tools: Jira, Confluence, MS Project, Figma, GitHub

EXPERIENCE

Manager, Digital Transformation | BDO India
New Delhi | Jan 2026 - Present | Client: NeGD, Ministry of Electronics and IT

- Project Manager for two national platforms: Green Hydrogen certification portal (about Rs 7 crore, team of 10) and 8th Pay Commission demand portal (about Rs 21 lakh, team of 8).
- Took the Green Hydrogen portal from first meeting to launch by the Minister on 1 July 2026. 8 certificates issued from 20+ applications, towards India's target of 5 million tonnes a year by 2030.
- Took the 8th Pay Commission portal live in about a month, across four organisations. About 21,000 demands are on it, for a Commission that reviews pay for about 70 lakh people.
- Cleared external security audits on both platforms before launch. Scoped Phase 2 AI work for both.

Project Manager | Infosys
Pune | Nov 2024 - Jan 2026 | Client: global wind-energy company

- Ran a $2M+ a year (about Rs 15 crore) portfolio of 55 applications with a team of 35.
- Took the unit from a complete loss to 15% profit in six months, by fixing how the work was organised before reducing headcount.
- Held 99.9% service levels and cut production fix time from 4 days to under 12 hours.
- Brought AI into ticket routing and closure in stages, and turned unpaid extra work into about $200,000 a year of new business.

Senior Consultant, Government | EY India
Delhi | Apr 2022 - Nov 2024 | Clients: Ministries of the Government of India

- National cooperative registry (Ministry of Cooperation): moved a paper-based office to a live platform for 1,800 societies and 40 million members. Application processing became 70%+ faster.
- Got the Multi-State Cooperative Societies Act amended for electronic notices and digital signatures, in about six months.
- National Portal of India (about Rs 23 crore): wrote the DPR and RFP and onboarded the vendor.
- Website ranking framework (about Rs 5 crore): built with IIT Delhi and IIM Indore, 150+ parameters, used by NeSDA.
- Moved 80+ government websites onto one framework with security audits and STQC certification. Redesigned the Indian visa system (IVFRT 2.0).

Software Engineering Lead | UST Global
Noida | Jun 2021 - Apr 2022 | Client: EY Global Delivery Services

- Built Skillchain, a blockchain platform for employee skills and certifications, and took it to a unit-wide pilot at EY. About 80% of people joined voluntarily.

SDE | ValueCoders
Noida | Jun 2020 - Jun 2021

- Built backend and blockchain systems for a cryptocurrency exchange, a document-management platform and a civil records platform.

IT Analyst | Tata Consultancy Services
Gurugram | Oct 2015 - May 2020

- Automated a card-dispute reconciliation on a bank mainframe, saving about GBP 200,000 a year. Cut reported defects by 40%.
- Built blockchain proofs of concept on Ethereum and Hyperledger Fabric. Two reached production.
